AER means Annual Equivalent Rate and shows what the interest would be if interest was paid and added each year. 3. While the balance is below the minimum investment, the interest rate payable will be the same as that payable for our Investment Share account (excluding bonus interest rates) as varied from time to time (please ask staff for details). We also reserve the right to close the account if the minimum investment is not maintained. Rates are variable and may go up and down from time to time.
