

A guide to our commercial mortgage fees and charges.

Valuation fees

Why do I need a valuation?

When a mortgage application has been approved by the Society, we will obtain a valuation of the property. This will determine the amount we could lend secured upon the property. The valuation is for mortgage purposes only, you cannot rely on the valuation and you are advised to arrange your own professional survey and valuation.

Daily interest

The interest on your loan will be calculated daily and charged to your mortgage account at the end of each calendar month. This means that every payment you make will affect the amount of interest charged to your account and, if you make an overpayment now and then, this will reduce the balance on which interest is charged.

Please remember that this works the other way around too. If you underpay or miss a payment, this will increase the balance on which interest is charged. Also, if any fees, charges, insurance premiums or other sums are added to your mortgage account, these will increase the balance on which interest is charged.

Annual Review Scheme

Please note that payments will be reviewed on 31st December each year and the reviewed payment will be payable with effect from March of the following year. Your monthly payments may also change at other times, for example when a fixed or discounted rate period ends.

Early repayment charges

If you repay all or part of your mortgage early, you may be required to pay an early repayment charge. Whilst you should read all of the conditions set out in the Facility Offer and the Norwich & Peterborough Commercial Mortgage Conditions carefully, your attention is specifically drawn to the fact that additional interest will be payable in the event of early redemption of the mortgage and, in some cases, if a lump sum capital repayment is made.

Fixed rates

In respect of a fixed rate loan, the additional interest will be payable in the event of full or partial redemption. With all Commercial fixed rate products an early repayment charge will apply to all overpayments. The early repayment charges will be detailed in your Facility Offer and discussed with you during your application.

Variable rates

In respect of a variable rate loan, during the period of 4 years from the date of drawing the loan, you may make repayments during any calendar year which do not amount in aggregate to more than 50% of the balance of the loan at the start of that year. Any repayment resulting in the 50% limit being exceeded will mean that the early repayment charge, equivalent to 3% of the loan outstanding at the time of redemption, becomes payable on the whole amount repaid during the year.

Please refer to your Facility Offer for full details of any early repayment charges which will apply.
